Submit your application at City Hall, or use www.MyBuildingPermit.com to submit your application online.

SINGLE FAMILY BUILDING PERMIT FOR ADDITIONS/ALTERATIONS	3b
----------------------------------------------------------------	-----------

This intake checklist identifies minimum application elements necessary for the City of Bothell to accept the application. Should any of the following minimum items not be provided, the application will not be accepted.

Applicant: A Permit Technician will use this checklist to confirm required items are included in the submittal package. If you think an item is not applicable to your project, you must contact the appropriate department prior to your intake appointment to have the items initialed as not required.

For paper submittals: 3 complete construction plan sets and 5 site plans (drawn to scale, construction plans are to be drawn to 1/8 inch = one foot, minimum. Include all items listed under Site Plan).

For interior only remodels: 2 sets construction plans, no site plan required.

The submittal fee (plan check fee) is due at application intake, additional fees are due at issuance of permit.

Development Services permit application per BMC 11.06.002. An application shall consist of all materials required by the applicable development regulations for the specific permit(s) sought, and shall include the following general information:

- | Applicant | Staff |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| <input type="checkbox"/> A completed & signed Permit Application form 1 (paper submittals)..... | <input type="checkbox"/> |
| <input type="checkbox"/> A property and/or legal description of the site for all applications, as required by the applicable development regulations | <input type="checkbox"/> |
| <input type="checkbox"/> The applicable fee (plan check fee)..... | <input type="checkbox"/> |
| <input type="checkbox"/> Fire Flow Availability letter from water purveyor indicating available fire flow | <input type="checkbox"/> |
| • If required fire flow is NOT available then fire sprinklers may be required. | |
| <input type="checkbox"/> If increasing the floor area of the building by more than 60%, evidence of adequate water and sewer availability (Water and Sewer Certificate of Availability) is required. If the City of Bothell is your provider, submit an application for Water and Sewer Certificate of Availability. You must receive your certificate prior to submitting this application, please allow 2 weeks for this review. If your provider is Alderwood, Northshore or Woodinville, please contact them for information regarding receiving certification for water and/or sewer availability and provide this with your application. | <input type="checkbox"/> |
| <input type="checkbox"/> If applying for an addition or alteration that includes adding plumbing fixtures and the water service provider is the city of Bothell, submit completed Water Meter Sizing Form 61b - 2 copies for paper submittals | <input type="checkbox"/> |
| <input type="checkbox"/> Structural calculations (calculations required for story additions) - 2 copies for paper submittals..... | <input type="checkbox"/> |
| <input type="checkbox"/> WA State Energy Code Compliance form (alterations which do not increase conditioned area may be exempt) - 2 copies for paper submittals | <input type="checkbox"/> |
| <input type="checkbox"/> Soils Report, pursuant to 14.04.210 required if Environmentally Sensitive Area is present on area to be altered. (bld, pln, file) - 3 copies for paper submittals | <input type="checkbox"/> |
| <input type="checkbox"/> King County Health or Snohomish Health District approval if on septic and the application is for an addition or adds any bedrooms. | <input type="checkbox"/> |
| <input type="checkbox"/> Puget Sound Clean Air Agency Notice of Intent form for asbestos removal if applicable (see https://secure.pscleanair.org/asbestos/). | <input type="checkbox"/> |

SINGLE FAMILY BUILDING PERMIT FOR ADDITIONS/ALTERATIONS

Additional submittal requirements:

Site Plan

Applicant

Staff

- | | | |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| <input type="checkbox"/> | Minimum 8 1/2" X 11" size paper at a scale of 20' equals 1" showing the proposed structure in plan view indicating: | <input type="checkbox"/> |
| <input type="checkbox"/> | Title block indicating name, address, phone number of applicant and owner, and property (site) address (contact Development Services for address verification or applications for new addresses prior to intake appointment); | <input type="checkbox"/> |
| <input type="checkbox"/> | Legal description (Subdivision/Lot #) and assessors parcel number..... | <input type="checkbox"/> |
| <input type="checkbox"/> | North arrow..... | <input type="checkbox"/> |
| <input type="checkbox"/> | Drawing scale..... | <input type="checkbox"/> |
| <input type="checkbox"/> | Property lines | <input type="checkbox"/> |
| <input type="checkbox"/> | All present improvements on property | <input type="checkbox"/> |
| <input type="checkbox"/> | Existing and proposed streets surrounding the property | <input type="checkbox"/> |
| <input type="checkbox"/> | Existing and proposed contours (2 foot increments where <15% slope, 5 foot increments where the slope is 15% or greater) | <input type="checkbox"/> |
| <input type="checkbox"/> | Location of existing and/or proposed easements | <input type="checkbox"/> |
| <input type="checkbox"/> | For applications with a proposed building height of more than 30 feet, provide a narrative that justifies how the allowable height can be increased (to a maximum of 35 feet) pursuant to BMC Table 12.14.030 (footnote 6). | <input type="checkbox"/> |
| <input type="checkbox"/> | Existing and proposed on-site sewer, water, and storm drain lines..... | <input type="checkbox"/> |

NOTE:

Footing and roof drains are required for any new single-family structure, any additions to or alterations of existing single-family structures that change the building footprint, and any detached accessory buildings (single-story with more than 120 square feet of floor area) associated with a single-family dwelling.

- | | | |
|--------------------------|----------------------------------------------------------------------------------------------------------------|--------------------------|
| <input type="checkbox"/> | Show the location of the proposed footing drain and roof drain; | <input type="checkbox"/> |
| | NOTES: | |
| | 1. The footing drain must conform to the current City of Bothell "Footing Drain Detail" (#497). | |
| | 2. The footing and roof drains must run separately until the point of connection to the storm disposal system. | |
| | 3. A cleanout is required at the point of connection. | |

- | | | |
|--------------------------|-----------------------------------------------------------------------------------------------------------|--------------------------|
| <input type="checkbox"/> | Show the proposed location and method of disposal of the footing and roof drain discharge; | <input type="checkbox"/> |
| | * If work in the right-of-way is required to connect to storm a separate right-of-way permit is required. | |

NOTES:

- 1) The footing and roof drains may connect to:
 - a) An existing drain system if one exists (to be verified before permit issuance),
 - b) To an available storm catch basin or other city maintained storm facility if one is available,
 - c) Otherwise, the drain discharge must be conducted to an on-site dispersal system designed and engineered by a licensed professional geotechnical engineer.

Plans stamped by the engineer are to be submitted for approval.
