City of Bothell™

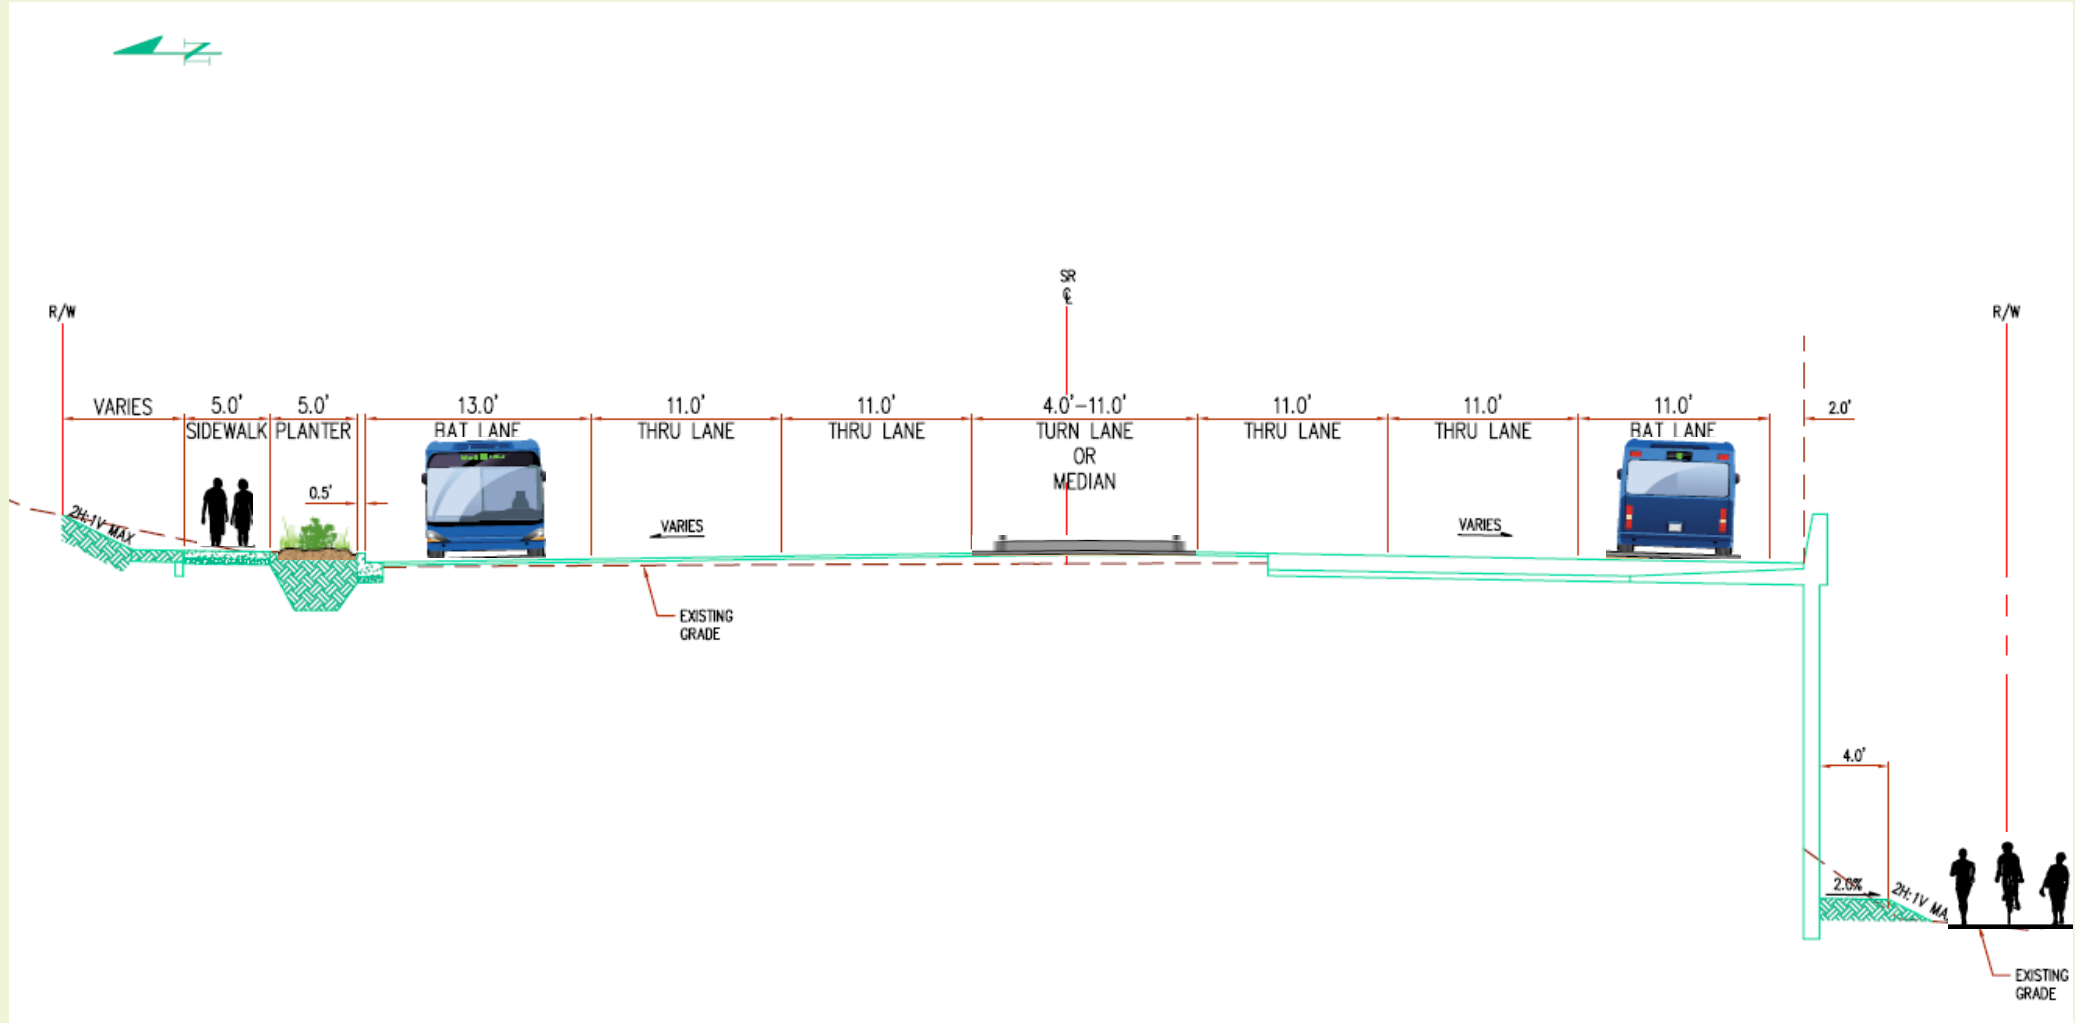

Project Overview

Project Elements

- Roadway Widening
- Business Access and Transit (BAT) Lanes
- Retaining Walls
- Utility Undergrounding
- Sidewalk & Planter on the North Side
- Sanitary Sewer, Water Main, and Storm Drainage System Improvements
- Traffic Signal Improvements
- Center Median
- Street Illumination

Typical Section

Project Benefits

- It supports the City's downtown vision as a walkable and transit-friendly place.
- Installation of a sidewalk on the north side of the highway will allow the neighborhoods to access intersections along SR 522 and the regional trail system. This will promote pedestrian and bicycle usage.
- This project is part of Sound Transit BRT project which will provide fast and reliable bus service every 10 minutes in peak hours along SR 522.

Overall Project Schedule

- Contract Working Day: 380
- Construction Work: Begin on Monday, April 29th, 2019
- Project Duration: Approximately 18 months
- Anticipated Completion: December 2020

Traffic Impacts during Construction

- Lane closures will be limited to off-peak (9:00am-3:00pm) and nighttime hours (8:00pm-5:00am).
- The City/Contractor will try to minimize noisy nighttime work.
- Drivers can expect to see lots of traffic barrels and lane shifts throughout construction.
- Drivers should remember to slow down in construction zones.
- “Traffic Fines Double” will be enforced within the construction zones.

Future Access to SR 522
